Authorization for this examiner's amendment was given in a telephone interview with Attorney John Conroy on November 12.

The application has been amended as follows:

Cancel claims 9 - 27.

Allowable Subject Matter

- (2). **Claims 1-8** are allowed.

Reasons for Allowance

- (3). The following is an examiner's statement of reasons for allowance:

This instant application to be placed in the condition of allowance primarily because of the reticle holder between two electret fibers in a reticle carrier overcomes the closest prior art references as discussed herein below:

The closest prior art of the Records – Dao et al (US06763608B2) disclose a reticle carrier and the reticle may be attached with a pellicle, The pellicle consists of a pellicle frame and a pellicle film stretched over the pellicle frame. The pellicle frame has included within an absorbent material (Abstract). However, Dao et al (US06763608B2) do not disclose two layers of electret fibers to sandwich the reticle holder as claimed by Applicants.

Another closest prior art of the Records - Ramamoorthy et al (US06646720B2) disclose EUV reticle carrier with removable pellicle (Title). In his teaching, a window is placed over the reticle and on top of the bottom. The parts are placed together and the top and bottom closed around the reticle (Col. 2, line 57-59). Nowhere in his teaching discloses the use of electret fibers

in the reticle carrier. Consequently, instant claims 1-8 define allowable subject matter and passed to issue, as to the date of this Notice of Allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
